

No. 57283

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office MAR 12 1992

Returned to applicant for correction _____

Corrected application filed _____

Map filed JUL 06 1987 under 51095The applicant Charles W. Searcy, Jr.6410 Tropical Parkway, of Las Vegas

Street and No. or P.O. Box No.

City or Town

Nevada 89130, hereby make application for permission to appropriate the public

State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

N/A1. The source of the proposed appropriation is an underground source

Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.1 CFS second-foot

One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet N/A3. The water to be used for quasi-municipal purposes

Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated N/A(b) Stockwater, state number and kinds of animals to be watered N/A(c) Other use (describe fully under No. 12. "Remarks") see item no. 12

(d) Power:

(1) Horsepower developed N/A(2) Point of return of water to stream N/A5. The water is to be diverted from its source at the following point within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 26, T19S,

Describe as being within a 40-acre subdivision of public

R60E, MDB&M, from which the Center quarter corner of said Sec. 26, bears South

survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

04° 43' 09" East a distance of 323.71 feet.6. Place of use Southeast quarter (SE $\frac{1}{4}$) of the Southeast quarter (SE $\frac{1}{4}$) of the Southeast

Describe by legal subdivision. If on unsurveyed land, it should be so stated.

quarter (SE $\frac{1}{4}$) of the Northwest quarter (NW $\frac{1}{4}$) of Section 26, Township 19 South,Range 60 East, MDB&M, Clark County, Nevada.7. Use will begin about January 1st and end about December 31st, of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Existing well, see #10

State manner in which water is to be diverted, i.e. diversion structure, ditches and

flumes, drilled well with pump and motor, etc.

9. Estimated cost of works N/A
10. Estimated time required to construct works Existing well with 8" cement cased, drilled to a depth of 450 feet, 2800 gallon storage tank, 3hp pump, meter and appurtenances.
If well completed, describe works.
11. Estimated time required to complete the application of water to beneficial use three years
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:
Well to service a total of three houses. See refrencemap #51095

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 57283 and 51095 shall not exceed 1.095 million gallons per year.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1 cubic feet per second, but not to exceed 0.365 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before August 4, 1994

Proof of completion of work shall be filed before September 4, 1994

Application of water to beneficial use shall be filed on or before August 4, 1997

Proof of the application of water to beneficial use shall be filed on or before September 4, 1997

Map in support of proof of beneficial use shall be filed on or before N/A

SEP 15 1994

Completion of work filed _____

Proof of beneficial use filed _____
